

The Keystone Fund with its dedicated revenue source—15% of the state’s share of the realty transfer tax—creates real and lasting improvements in communities across Pennsylvania.

By investing in communities, the Keystone Fund supports the real estate market; in turn, the market supports the Keystone Fund.

Keystone Fund projects create jobs and boost the economy in all 67 Pennsylvania counties.

Keystone Fund investments plummeted with the Great Recession and only now are recovering to pre-2007 levels.
